BALANCE SHEET TRENDS

The Balance Sheet, also known as a Statement of Financial Position, shows the accumulated financial results of all the years that an organization has been in operation, and consists of what the organization owns - its assets; what the organization owes - its liabilities; and the difference between its assets and liabilities – its net assets or net worth.

BALANCE SHEET TRENDS: FINANCIAL POSITION

The key measures of financial position below can help understand the capital structure of an organization.

| Financial Position | FY 2013 | FY 2014 | FY 2015 |
|-------------------------------------|-------------|-------------|-------------|
| Net assets as a % of total expenses | 129% | 128% | 107% |
| Total Working Capital | \$360,379 | \$601,546 | \$270,420 |
| Fixed Assets (net) | \$1,684,736 | \$1,636,353 | \$1,603,905 |
| Total Endowment | \$0 | \$0 | \$0 |
| Total Debt | \$0 | \$0 | \$53,500 |

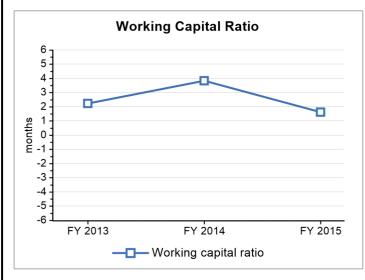

Net assets as a % of total expenses measures the net worth of an organization in relationship to its operating size. It is calculated as total net assets divided by total expenses. If the trend is level or increasing, then total net assets are keeping pace with growth in operating expenses.

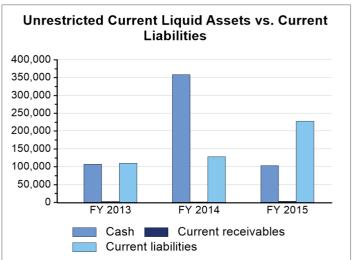

Total working capital consists of the unrestricted resources available for operations, and in this report is calculated as unrestricted current assets (not including unrestricted endowment investments) minus unrestricted current liabilities. This is a conservative calculation of working capital and may differ from your internal calculations. Adequate working capital provides financial strength and flexibility to your organization, the ability to meet obligations as they come due, and the ability to take more risks, knowing there is a cushion to fall back on.

Fixed assets (net) include all land, buildings, equipment, and other fixed assets owned by the organization. It is calculated net of accumulated depreciation to reflect the reduction in the value of an asset as it ages and is used.

Total endowment includes monies usually invested long-term. Endowment may be unrestricted, temporarily restricted, or permanently restricted. Income from endowment is generally available for operations or to support specific purposes.

Total debt consists of all short and long-term contractual obligations of the organization, including notes, bonds, and capital leases payable.

The Working Capital Ratio relates working capital to the size of the operation, showing how many months of operating revenue are available to meet current needs. The graph at the right looks at the most liquid of the organization's unrestricted current assets in comparison to its current liabilities.
