

The Purple Rose Theatre Company Volunteer Usher Requirements to Perform the Duties

The demands described here are representative of those that must be met by a volunteer to successfully perform the essential functions of the usher job. Some accommodations may be made to enable individuals with disabilities to volunteer as an usher.

While performing this job, the volunteer is required to stand for long periods of time, potentially sit on stairs, and will need to be able to walk, talk, hear, handle mobility devices, and touch programs, tickets, and some trash. The volunteer is occasionally required to climb or balance, stoop, kneel, crouch, and reach above shoulders. The volunteer may be required to lift program boxes, move stanchions, or easels. The duties of this job require the use of close, distance, and peripheral vision, as well as depth perception and the ability to adjust focus.

The noise level in the work environment is usually moderate.

When signing up to usher, please make our box office staff aware of any limitations you have to the above requirements. The PRTC will make a determination based on that info if this volunteer opportunity will be possible.
